

# TECHNICAL DATA SHEET

## RAPIDALL JS

## all-purpose cleaner

### Specifications

---

Composition		Technical Data	
Water	< 7%	Appearance	Light to medium brown powder
Viable bacteria cultures*	1 – 5%	pH	7.0 approximately
Sodium bicarbonate	< 10%	Storage	Room temperature
Citric acid	< 1%		

(\* ) Viable microorganisms are naturally occurring in soil and are non-pathogenic.

### Application Guidelines

---

- It effectively cleans and eliminates organic materials such as: fats, grease, oil & synthetics, heavy dirt and grime
- It also controls odors in bathrooms, garbage disposal, etc.
- Reduces the “slip” coefficient on all type of floors, even when wet
- No protective equipment required
- Ready-to-use product, once diluted with water, is a brown liquid best adapted to industrial settings
- Once diluted with water in an enclosed spray bottle, product should be used within 24 hours

### Application Methods

---

1. Dilute 4-6 grams concentrate per liter of water
2. Spray or wipe product on surface
3. Brush or wipe
4. Rinse with clean water if necessary
5. Repeat if necessary
